DETAILED ACTION

Prelim. Amdt/Amendment

1. Receipt is acknowledged of the Amendment filed 16 September 2004.

Allowable Subject Matter

2. Claims 1-14 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of Oguchi and all other cited references, taken alone or in combination, fails to teach or fairly suggest the specific structure of a card connector comprising, among other steps, a stopper member pivots between a first position where the stopper member blocks the first receiving slot to prevent advancement of the first or second card, and a second position where advancement of the first or second card is unblocked; and a cam member having a claw that abuts the stopper member to prevent the stopper member from pivoting to the second position and a cam surface that releases the claw from the stopper member when cam-engaged by the first card as set forth in the claimed combinations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2876

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The patents to Owa et al. (US 5917177 A) and Nakamura et al. (US 5949048 A) are of interest and illustrate to a similar structure of a card connector.
